Vaman Sriharan / info@sriharan.com / www.sriharan.com

Dedicated and creative UX/UI Designer with passion for creating intuitive and visually appealing user interfaces. Adept at understanding user needs and translating them into engaging digital experiences. Seeking to contribute my skills and expertise to an innovative team in a dynamic company.

Education:
BEng (Electrical & Electronic Engineering) / University of Surrey
UX/UI Design / University of Birmingham

Skills:
User Research: Conducting user interviews, surveys, and usability testing to identify user pain points and preferences.
I*nformation Architecture*: Creating wireframes and sitemaps to organize information and define user flow.
User Interface Design: Designing visually appealing and intuitive user interfaces using tools like Sketch, Figma & Xd
Interaction Design: Prototyping interactions and micro-interactions to enhance user engagement.
Usability and Accessibility: Ensuring designs meet usability and accessibility standards to reach a broader audience.
Visual Design: Strong understanding of design principles, color theory, and typography to create aesthetically pleasing designs.
Collaboration: Ability to work closely with cross-functional teams including developers, product managers, and stakeholders.
Problem Solving: Identifying design challenges and providing creative solutions to enhance user experience.

Portfolio:
Parking Pal (Mobile Prototype) An App designed to streamline the parking process by providing users with real time information about availability of parking spaces in their area or vicinity as well as other useful features
US Dept. of Energy (Website Redesign) Website redesign along with content, functionality, and to enhance its user experience
PAWS (Website Redesign) Website redesign along with content, functionality, and user experience to enhance its effectiveness in attracting users.
